EDUCATION

Carleton University

Bachelor of Computer Science

Ottawa, ON

Sep. 2021 – May 2025

- GPA: 3.3/4
- Relevant Coursework: Abstract Data Types and Algorithms, Database Management Systems, Fundamentals of Web Applications, Object-Oriented Software Engineering, Discrete Structures, Software Quality Assurance, Reinforcement Learning, Operating Systems

TECHNICAL SKILLS

Languages: HTML, CSS, JAVA, C, C++, Python, JavaScript, TypeScript

Technologies/Frameworks/Database: Spring-Boot, React, Node.js, Express.js, Tailwind, Bootstrap, JUnit, Selenium, Cucumber, PostgreSQL

PROJECTS

Carleton Course Notifier | *JavaScript, Node.js, PostgreSQL, Express, Puppeteer*

- Developed a full-stack web application that allows Carleton University students to register for notifications when seats in desired courses become available
- Implemented a relational database schema using PostgreSQL to manage users, courses, and registration records
- Implemented backend services with Node.js and Express.js to handle user registrations, course status tracking, and e-mail notifications
- Deployed the application using modern cloud services
- GitHub link: <https://github.com/vitcorr/carleton-course-notifier>

Health and Fitness Club Management System | *JavaScript, PostgreSQL*

- Designed a fitness management program using **JavaScript** and **PostgreSQL**
- Implemented the database using PostgreSQL, creating an efficient and scalable structure based on ER-diagram and normalization principles
- Developed backend functionalities using Node.js, ensuring robust and secure data processing
- Implemented the frontend interfaces for members and staff using JavaScript and Pug
- Collaborated with teams to optimize module interactions and overall application architecture
- GitHub link: <https://github.com/vitcorr/Health-and-Fitness-Club-Management-System>

Game of Quests - Test Automation | *Java, JUnit, Cucumber, Selenium*

- Developed a quest-based game in Java, focusing on robust design and functionality
- Conducted unit and integration testing using **JUnit** and behavior-driven testing with **Cucumber**
- Built a web-based version using **Spring Boot** and JavaScript, enhancing accessibility and user experience
- Automated end-to-end testing for the web application using **Selenium** to ensure reliability across browsers
- GitHub link: <https://github.com/vitcorr/A1-kolawole-victor-101201377/tree/a3-4004>

EXPERIENCE

Busboy/Assistant Barista

L'Avenue Restaurant

Aug. 2018 – Mar. 2019

Montreal, Quebec

- Organized and ensured the meal ingredients were ready before, during, and after shifts
- Ensured the cleanliness of the restaurant and equipment

Customer Service Representative

Enterprise Mobility

Jan. 2024 – Present

Ottawa, Ontario

- Attended Customers to satisfaction while they waited on vehicle
- Clean vehicle interior and Wash, clean, and dry the vehicle's exterior

VOLUNTEER EXPERIENCE/EXTRA-CURRICULAR ACTIVITIES

Battle Snake Competition - Carleton Computer Science Society: Created an AI to play snake and compete against other players' snakes

Supervisor - The Door Youth Centre, Ottawa, Ontario
